Subject: REACH 235 Statement

Dear Customer,

This statement is intended to confirm that, to the best of our knowledge, all RoHS compliant products manufactured by Sealevel Systems, Inc. and its contract manufacturers meet the standards of the European Union Registration, Authorization of Chemicals (REACH). As of June 14, 2023, two additional substances were added to the SVHC list.

Sealevel Systems Inc. has verified with our suppliers and received confirmation that products such as bare boards, enclosures, cables, labels, and packaging material used with our products are all compliant with the RoHS III and REACH standards.

Please note that neither Sealevel Systems Inc. nor its suppliers routinely analyze our products for chemical content, nor are we required to do so. Therefore, it is not possible for Sealevel Systems, Inc. to state categorically that our products are 100% free of substances listed in the REACH standard.

The latest 233 substances subject to analysis per the REACH Regulation were last updated on January 17, 2023. Please refer to the following for the most current candidate list of substances: <https://echa.europa.eu/candidate-list-table>.

The REACH Regulation can be found here:
<https://echa.europa.eu/regulations/reach/understanding-reach>.

Best Regards,

Dale Sanders
